Venator joins Eurocolour

Wynyard, UK - Venator, the global chemical company delivering pigments and additives that make a difference to daily life, has joined **Eurocolour** - the umbrella organization for manufacturers of pigments, dyes and fillers in Europe.

As part of its membership, Venator's pigments experts will serve on Eurocolour's different assemblies and technical committees. The team will give opinions on trade as well as contribute to debates about legislative and regulatory issues. They'll also provide input to stakeholder communication programs on environmental, health and safety matters.

Robert Bird, Senior Manager Product-EHS at Venator, said: "As a leading manufacturer of pigments and additives, we're always looking for industry engagement opportunities. Incredibly passionate about what we do, we're keen to shape the sector we work in, in whatever way we can. We're honored to become a Eurocolour member and excited to work with our peers to promote the interests of pigment manufacturers across Europe."

Eurocolour is a sub group of CEFIC - the European Chemical Industry Council. Venator's membership of Eurocolour adds to the company's engagement with other trade bodies including the Titanium Dioxide Manufacturers Association (TDMA); and Eurocolour member associations in Germany (VdMi) and France (Epsom).

About Venator

Venator is a global manufacturer and marketer of chemical products that comprise a broad range of pigments and additives that bring color and vibrancy to buildings, protect and extend product life, and reduce energy consumption. We market our products globally to a diversified group of industrial customers through two segments: Titanium Dioxide, which consists of our TiO₂ business, and Performance Additives, which consists of our functional additives, color pigments, timber treatment and water treatment businesses. We operate 27 facilities, employ approximately 4,500 associates worldwide and sell our products in more than 110 countries.

Cautionary Statement Concerning Forward-Looking Statements

Certain statements contained in this press release constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements represent Venator's expectations or beliefs concerning future events, and it is possible that the results described in this press release will not be achieved. These forward-looking statements are subject to risks, uncertainties and other factors, many of which are outside of Venator's control, that could cause actual results to differ materially from the results discussed in the forward-looking statements.

Any forward-looking statement speaks only as of the date on which it is made, and, except as required by law, Venator does not undertake any obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise. New factors emerge from time to time, and it is not possible for Venator to predict all such factors. When considering these forward-looking statements, you should keep in mind the risk factors and other cautionary statements in the prospectus filed with the SEC in connection with Venator's initial public offering. The risk factors and other factors noted in Venator's prospectus could cause its actual results to differ materially from those contained in any forward-looking statement.
