Venator Shortlisted for Three Awards at 2025 Chemical Industry Association Awards

WYNYARD, UK, May 14, 2025 – Venator, a leading supplier of specialty chemicals and ingredients, is delighted to announce its nomination for three prestigious awards at the 2025 Chemical Industry Association (CIA) Awards, a cornerstone event in the UK chemical industry calendar.

Venator has been shortlisted for the **Innovation Award** for its TMP-free project, which has successfully introduced a more sustainable and future-proof product range to the market. The company is also recognized for the **Sustainability Award**, underscoring its extensive efforts to foster a more sustainable business through innovations such as its new product carbon footprint tool V-PCF and broader initiatives aimed at reducing environmental impact.

Additionally, Derrick Green, Logistics Operations Team Leader, has been nominated for the **Nick Sturgeon Unsung Hero Award**. His unwavering dedication to health and safety and operational excellence continues to make a significant impact across the organization.

The CIA Awards celebrate companies that demonstrate exceptional performance in areas such as sustainability, health and safety, innovation, workforce development, and young talent.

Bryan Snell, President and Chief Executive Officer of Venator, expressed his enthusiasm about the nominations, stating, "Being shortlisted in three categories is a fantastic achievement and a true testament to the innovation, teamwork, and commitment we see from our Venator experts every day."

The winners will be announced at an awards ceremony on June 12, 2025.
