VENATOR TO LAUNCH NEW COLOR DOSING MACHINES FOR READY-MIX CONCRETE

Visit Venator at Bauma 2019 at Stand 224 in Hall B1
8-14 April 2019, Munich, Germany

Wynyard, UK - Venator, the experts in pigments and additives for the construction industry, will be attending Bauma in April. At the show, Venator will launch a new line of advanced color metering machines. Satisfying the needs of ready-mix concrete producers, the new pigment dosing machines are the latest addition to Venator's Chameleon equipment range, which is engineered specifically for use in the construction sector. Further information about the new machines, and the color pigment microgranules that they use, will be revealed closer to the show.

During Bauma, Venator will promote the range of products it offers to produce colored concrete including its carbon black and iron oxide pigments, its microgranule technologies and its color pigment dosing equipment.

Glyn Jagger, Business Director at Venator, said: "This year, Bauma is particularly exciting for the Venator construction team. As well as showcasing core products from our color pigments portfolio, we'll be launching an advanced piece of equipment for creating colored concrete."

About Venator
Venator is a global manufacturer and marketer of chemical products that comprise a broad range of pigments and additives that bring color and vibrancy to buildings, protect and extend product life, and reduce energy consumption. We market our products globally to a diversified group of industrial customers through two segments: Titanium Dioxide, which consists of our TiO_2 business, and Performance Additives, which consists of our functional additives, color pigments, timber treatment and water treatment businesses. We operate 24 facilities, employ approximately 4,300 associates worldwide and sell our products in more than 110 countries.

Cautionary Statement Concerning Forward-Looking Statements
Certain statements contained in this press release constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements represent Venator's expectations or beliefs concerning future events, and it is possible that the results described in this press release will not be achieved. These forward-looking statements are subject to risks, uncertainties and other factors, many of which are outside of Venator's control that could cause actual results to differ materially from the results discussed in the forward-looking statements.

Any forward-looking statement speaks only as of the date on which it is made, and, except as required by law, Venator does not undertake any obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise. New factors emerge from time to time, and it is not possible for Venator to predict all such factors. When considering these forward-looking statements, you should keep in mind the risk factors and other cautionary statements in the prospectus filed with the SEC in connection with Venator's initial public offering. The risk factors and other factors noted in Venator's prospectus could cause its actual results to differ materially from those contained in any forward-looking statement.
