Say hello to Venator at in-cosmetics global Stand H10, RAI Amsterdam, The Netherlands - 17 to 19 April 2018

Wynyard, UK – Venator Materials PLC (Venator), the specialists in titanium dioxide and color pigments for the cosmetics industry, will be exhibiting at in-cosmetics global in Amsterdam in April. At the event, Venator's cosmetics experts will be promoting the high purity products they produce for many of the world's leading beauty and personal care brands.

Venator's pigments and additives are integral to the look and feel of all kinds of cosmetic, skin and dental care formulations. Providing the pigment power behind countless color cosmetics, Venator's color pigments deliver dramatic, long-lasting results in mascaras, eyeshadows, lipsticks, blushers and many other make up products. Venator's titanium dioxide pigments provide a flawless finish in foundations and help to give concealers and correcting creams consistent coverage capabilities. Venator also has a wealth of experience in the development of specialist titanium dioxide grades for anti-aging skin care treatments, ultra-natural baby care products and sunscreen formulations.

Reiner Mertscheit, Global Business Director at Venator, said: "in-cosmetics global is a great opportunity to catch up with all of our customers and discuss upcoming projects; what better place to showcase our well-known HOMBITAN®, UV-TITAN®, FERROXIDE®, SICOVIT®, TRUPURE™ and ultramarine products."

Say hello to Venator's cosmetics experts at in-cosmetics global and learn more about the company's portfolio of pigments and additives. Visit the team at stand H10. Alternatively, if you're not going to in-cosmetics global, you can email the team at: cosmetics_expert@venatorcorp.com.

About Venator

Venator is a global manufacturer and marketer of chemical products that comprise a broad range of pigments and additives that bring color and vibrancy to buildings, protect and extend product life, and reduce energy consumption. We market our products globally to a diversified group of industrial customers through two segments: Titanium Dioxide, which consists of our TiO₂ business, and Performance Additives, which consists of our functional additives, color pigments, timber treatment and water treatment businesses. We operate 27 facilities, employ approximately 4,500 associates worldwide and sell our products in more than 110 countries.

Cautionary Statement Concerning Forward-Looking Statements

Certain statements contained in this press release constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements represent Venator's expectations or beliefs concerning future events, and it is possible that the results described in this press release will not be achieved. These forward-looking statements are subject to risks, uncertainties and other factors, many of which are outside of Venator's control, that could cause actual results to differ materially from the results discussed in the forward-looking statements.

Any forward-looking statement speaks only as of the date on which it is made, and, except as required by law, Venator does not undertake any obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise. New factors emerge from time to time, and it is not possible for Venator to predict all such factors. When considering these forward-looking statements, you should keep in mind the risk factors and other cautionary statements in the prospectus filed with the SEC in connection with Venator's initial public offering. The risk factors and other factors noted in Venator's prospectus could cause its actual results to differ materially from those contained in any forward-looking statement.
