Say hello to Venator at Zellcheming-Expo 2018 **Visit Venator in Hall 4.1 at Stand G48** **26 to 28 June 2018 in Frankfurt am Main, Germany**

Wynyard, UK – Pulp and paper experts from Venator will be promoting their expertise in water treatment chemicals, pigments and additives for the paper industry at Zellcheming-Expo later this month. At the show, Venator will showcase the extensive range of highly specialized wet-end water treatment chemicals and pigments it produces, which can enhance the processing and performance properties of paper.

Venator is a leading producer of aluminium-based flocculation aids for the European pulp and paper industry. For paper mill manufacturers looking to enhance the performance of their products, Venator's wet-end water treatment chemicals range includes customizable solutions that can be adapted for all kinds of paper applications from standard printer paper to specialist products including bank notes and postage stamps.

Venator will also spend time at Zellcheming-Expo talking to attendees about its titanium dioxide pigments and functional additives portfolio. Venator has developed a range of pigments for the paper industry that can have a direct bearing on paper quality - helping to achieve different finishes and improving the overall printability and durability of paper products.

Arne Hörskén, Director for Technical Customer Service for Water Treatment at Venator, said: "Global pulp and paper manufacturers rely on our pigments and performance additives to improve the processing, appearance and quality of a vast range of paper and cardboard products. This is our second year of exhibiting at Zellcheming-Expo as Venator and we're looking forward to talking to customers about how we can support their formulation needs."

Say hello to the Venator team at Zellcheming-Expo and learn more about the company's portfolio of pigments and additives for the paper industry. Visit the team at Stand G48 in Hall 4.1. Alternatively, email: paper_expert@venatorcorp.com or go to www.venatorcorp.com for more information.

About Venator

Venator is a global manufacturer and marketer of chemical products that comprise a broad range of pigments and additives that bring color and vibrancy to buildings, protect and extend product life, and reduce energy consumption. We market our products globally to a diversified group of industrial customers through two segments: Titanium Dioxide, which consists of our TiO₂ business, and Performance Additives, which consists of our functional additives, color pigments, timber treatment and water treatment businesses. We operate 26 facilities, employ approximately 4,500 associates worldwide and sell our products in more than 110 countries.

Cautionary Statement Concerning Forward-Looking Statements

Certain statements contained in this press release constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements represent Venator's expectations or beliefs concerning future events, and it is possible that the results described in this press release will not be achieved. These forward-looking statements are subject to risks, uncertainties and other factors, many of which are outside of Venator's control, that could cause actual results to differ materially from the results discussed in the forward-looking statements.

Any forward-looking statement speaks only as of the date on which it is made, and, except as required by law, Venator does not undertake any obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise. New factors emerge from time to time, and it is not possible for Venator to predict all such factors. When considering these forward-looking statements, you should keep in mind the risk factors and other cautionary statements in the prospectus filed with the SEC in connection with Venator's initial public offering. The risk factors and other factors noted in Venator's prospectus could cause its actual results to differ materially from those contained in any forward-looking statement.
