## **Say hello to Venator's titanium dioxide and performance additives experts at Chinacoat**

**The Venator team will be at Chinacoat from 15-17 November 2017**

**Stand number W2.D01-04 in Hall W2 / Zone 7 at the Shanghai New International Expo Centre (SNIEC)**

**Wynyard, UK – Venator Materials PLC (Venator), the specialists in titanium dioxide (TiO<sub>2</sub>) and performance additives, will be exhibiting at Chinacoat next week.**

Venator has one of the broadest product portfolios of pigments and additives for the coatings sector. The business makes TiO<sub>2</sub> white pigments, color pigments, additives and fillers for use in all kinds of coatings and inks systems. Whatever the surface or substrate, Venator's pigments and additives can deliver brilliance, opacity, gloss and color – whether you are making a specialist coating system for an aerospace, automotive or marine application or a decorative paint for the DIY market.

Eric Chong, Vice President of Venator in Asia Pacific, said: "This is our first time at Chinacoat as Venator – and we're extremely excited for the show. We have 40 Venator experts coming along to Shanghai to talk to formulators about the cost, processing, performance and environmental benefits that our titanium dioxide pigments and performance additives can add to their coating capabilities. We have a strong footprint in Asia with Sales and Technical support hubs across Asia Pacific and Customer Service support in Kuala Lumpur, Malaysia, in addition to our two manufacturing sites in Taicang, China and Teluk Kalong, Malaysia."

Say hello to Venator's coatings experts at Chinacoat and learn more about the company's portfolio of pigments and additives. Alternatively if you're not at Chinacoat and want to find out more, email the team at: [coatings\\_expert@venatorcorp.com](mailto:coatings_expert@venatorcorp.com).
